REPORT OF SCHOOL BOARD.

The schools have not been as successful as the Board of Education desired in all particulars, but the whole of the blame for this failure does not rest upon the teachers and scholars nor yet upon your school officers. The parents must bear their share of the responsibility for the success or failure of any school. Therefore, when you begin to criticise the schools, or any particular school, remember that in part you are criticising your own acts or failure to act. It is a lamentable state of affairs when the parents care so little about the education of their children, that a school composed of fifteen or twenty scholars, keeps through two or more terms, and during that time only one of the parents ever visits the school, and that *one* on the closing day when all failures are beyond repair. Parents, your teachers and Board of Education cannot do all that ought to be done. The burden of your child's education and his success or failure in his future career rests primarily upon your shoulders, and cannot be evaded nor thrust upon any other; therefore, visit your school early and often.

The school board are well pleased with the evident interest taken by the scholars in their school, as shown by the registers. Of fifty pupils attending school the past year thirty-one were on the honor roll for at least one term. Also, it is an evident fact that when scholars are so anxious to be in school creditable improvement is sure to follow.

Estimate of expenses for the following items for ensuing year:

| | |
|-----------------------------------|----------|
| Tuition for high school scholars, | \$300.00 |
| Text-books and supplies, | 75.00 |
| Salaries of school officers, | 90.00 |
